## Garmin GPSMAP 60CSx - awesome price!

If you are interested in a good deal, my local Best Buy is selling the Garmin GPSMAP 60CSx for \$155. They had 6 left in stock when I left this evening.

<https://buy.garmin.com/shop/shop.do?pID=310#gpsmap60csx>

Total with tax would be \$168

If you would like, I could pick one up and I could ship it to you for an additional \$10 via FedEx. We would need to do a PayPal transaction, to expedite the process.

The total to your door (lower 48) would be \$178

Let me know, so I can swing by tomorrow and pick it up and get it out to you!

I have purchased the last of these GPS units in my area between 3 stores. I was able to get a few for some of those that responded first.

Thanks!

I am sorry for not responding earlier, no excuse!
